DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,8-10 are rejected under 35 U.S.C. 102(b) as being anticipated by
MENARD et al. 3,734,869.

CLAIMS 1,8-10.

MENARD et al. discloses a rotary switch for scrolling through a plurality of scrollable parameters ; and a bump stop (41) for triggering the ability to increment and decrement the plurality of scrollable parameters.

Allowable Subject Matter

Claims 4-7,11-24 allowed.

The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not disclose or suggest the bump stop triggering a ratcheting function.
